

# Redefining the future of virtual AGMs

AGM@Convene is our end-to-end solution that ensures a seamless virtual AGM experience fully adhering to legislative guidelines.

## Increased Shareholder Engagement

Simulate the same experience as having a physical AGM with AGM@Convene, breaking the barriers between physical and virtual AGMs.

## Live Two-Way Webcast

Watch and participate in the AGM proceedings.

## Live Voting

Vote and view results in real-time during the AGM.

## Live Q&A

Participate in Live Q&A through text-based submission of questions or video-based two-way webcasting.

## Increased Shareholder Participation

Facilitate seamless and fuss-free registration and collection of AGM-related information in one integrated platform.

## Easy Registration and Authorisation

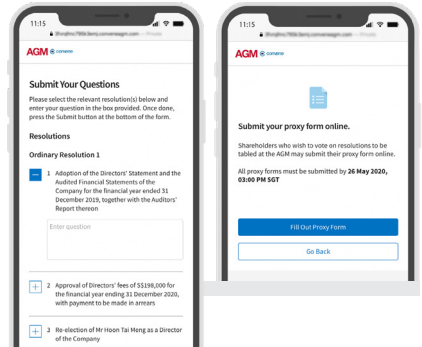

Register as a shareholder with ease, authorise user accounts, and delegate roles for internal staff and professional parties.

## Submission of Digital Proxies

Submit proxy forms digitally to allow for a hassle-free consolidation of proxy votes.

## Advanced Submission of Questions

Enable shareholders to voice queries and note objections in a fair and efficient manner prior to the two-way webcasting.

## Transparency and System Control

Guarantee transparency of any actions performed while having full control of the system and data.

## Real-Time Weighted Voting System

Allow for live weighted voting with transparent and instantaneous display of poll results.

## Audit Trail, Reports, and Data Exports

Automatically generate Control Reports, Attendance Reports, and any required Data Exports.

## Full System Ownership

Manage the system with full control, and customise the AGM site with company branding, documents, and forms.

## Security and Support

AGM@Convene is committed to providing you with dedicated support and the highest level of security.

## Customer Success Team and 24/7 Support

Ensure AGM success through on-site or online support for rehearsal and actual AGMs. Training materials and shareholder support are included.

## User Authentication and Permission Control

Safeguard user access with a unique security code, SMS two-factor authentication, and role-based permission control.

## CMMI Level 5 Certification and AWS Partnership

Protect confidential data and discussions with state-of-the-art security features, CMMI Level 5 processes, and world-class hosting with AWS.

**A pioneer of this service, we have successfully conducted multiple large-scale virtual AGMs—providing our clients with a smooth and seamless virtual Annual General Meeting experience.**

“Having no experience in any electronic video and tele-conferencing facilitation with our shareholders on an international scale, Azeus Convene has brought us a seamless experience conducting our company’s Annual General Meeting via webcast.”

Tio Shio Pin, Legal Manager, Nam Cheong Limited
