ASTRI Technovation Centre  
Photonics Centre, 2 Science Park East Avenue  
Hong Kong Science Park, Shatin, Hong Kong

REGISTER  
NOW

Ever wonder how your business can be further enhanced with the use of technologies? To help members develop better understanding of advanced homegrown technologies and their business applications, the Chamber is organising a visit to ASTRI.

Hong Kong Applied Science and Technology Research Institute (ASTRI) was founded by the Government of the Hong Kong Special Administrative Region in 2000 with the mission of enhancing Hong Kong's competitiveness through applied research. ASTRI's core R&D competence in various areas is grouped under four Technology Divisions: Trust and AI Technologies; Communications Technologies; IoT Sensing and AI Technologies and Integrated Circuits and Systems. It is applied across six core areas which are Smart City, Financial Technologies, Re-Industrialisation and Intelligent Manufacturing, Digital Health, Application Specific Integrated Circuits and Metaverse.

In this visit, members will have the chance to see first-hand the development of homegrown applied technologies, including AI, Federated Learning, Chatbot and Avatars and others, and their potential applications in various business contexts and scenarios, such as ESG Analysis, Target Marketing, Customer Services, Security, and more.

Participants will view a series of presentations on various technology platforms, followed by discussion with the developers and researchers behind.

After the visit, attending Chamber members are invited to stay behind at Science Park for networking Happy Hour drinks.
